GEN AI ENGINEER • BACKEND DEVELOPER • AUTOMATION WORKFLOW ENGINEER

PROFESSIONAL SUMMARY

Generative AI & Backend Engineer with 1+ year of experience building production AI systems, automation workflows, multi-agent architectures, and full-stack applications. Specialized in LLMs (GPT-4, Claude), RAG, and LangGraph agentic workflows. Strong foundation in Next.js, Node.js, Python, FastAPI, PostgreSQL, MongoDB, and cloud integrations.

TECHNICAL SKILLS

AI & Automation: LLMs, LangGraph, Agents, RAG, Vector DBs, Automation Pipelines

Backend: Node.js, Express, Python, FastAPI, REST APIs, Microservices

Full Stack: Next.js, React, Tailwind

Databases: PostgreSQL, MongoDB, ChromaDB, Pinecone

DevOps: Docker, CI/CD, Monitoring, Logging, AWS Basics

PROFESSIONAL EXPERIENCE

AI Developer — PM Accelerator (Remote, USA)

- Built multi-stage AI pipelines combining FinBERT, statistical ML, and GPT-4.
- Developed backend microservices (FastAPI, Python) integrating embeddings, models, and APIs.
- Implemented agentic workflows for automated reasoning.
- Achieved 30% token cost reduction and 85%+ accuracy improvements.

AI Consultant — Bayerntek (Remote)

- Built automation workflows & chatbots using GPT-4/Claude.
- Designed multilingual, production-ready AI assistants.
- Integrated APIs, monitoring dashboards, and iterative optimization.

AI Engineer Intern — GALTech Technologies

- Backend integration using Python & FastAPI.

- Built NLP workflows, chatbot logic, and session management.

KEY PROJECTS

TickerPulseAI — Financial Multi-Stage AI System

- 6-stage real-time AI pipeline (Ingestion → FinBERT → Validation → Z-score → Alerts → GPT-4 Summaries)
- Built backend APIs, automated workflows, and PostgreSQL architecture.

Autonomous Research Assistant — Multi-Agent Workflow

- Built Planner → Executor → Synthesizer agents with LangGraph.
- Integrated web search, RAG, semantic retrieval, and automated task execution.

Discord RAG Chatbot

- Built intelligent Q&A; chatbot with 100% test accuracy.
- Integrated Azure OpenAI + MongoDB Atlas vector DB.

EDUCATION

Deakin University — Master of Professional Accounting & Master of Commerce (2011–2013)

CERTIFICATIONS

Hands-on Generative AI (Educosys)

Machine Learning with Python (Coursera)

AI For Everyone

Basics of Chatbots with ML & Python
